Johannes Kunz was a great help with the visa process. Moving to Australia for a job, I was overwhelmed and puzzled by the immigration process and additionally pressed for time. I found Johannes Kunz via a internet search. He took care of all the visa related paperwork, quickly answered all my emails, and was always very friendly. Thanks to him my visa came through in time and I could move to Australia and settle in before my work commenced.

If I ever again need help with Australian immigration or visa services in the future, I will contact him - and I recommend that to everyone else, too! [See less](#)
