

## Michelle Moynihan

Traveller - wandering Asia and beyond

March 10, 2018, Michelle was a client of Johannes'

I can only speak highly of Johannes and his company, Johannes Kunz Migration Services. I recently had a successful outcome with a Prospective Marriage Visa 300, after 23 months of waiting, and two additional submissions. It was not a particularly straightforward case, in part because my partner is from a category three country. However Johannes is experienced and knowledgeable about immigration processes, and also has a legal background - all of which gave us confidence in his recommendations and strategic approach to our case.

He offers professionalism, thoroughness, objectivity and patience. Without his careful, considered guidance and painstaking attention to our documentary evidence, I am certain we would not be enjoying our happy outcome. Indeed, we had an earlier discouraging negative experience with another Migration Agent who accepted payment, but closed her business without lodging our visa application. All Agents are not created equal. Johannes is well established in his business which he conducts with openness, steadiness, competence and integrity - all elements which we highly value.

We found Johannes to be trustworthy, respectful and ethical. He is prompt and clear with correspondence and communication. We always felt that our case mattered to him, despite the long time frame involved, and never doubted that he always had our best interests at the heart of our business dealings.

However it was his organised approach, accumulated expertise and astute judgement which were the critical factors for our successful visa grant. I hold Johannes in high regard and unreservedly recommend him as a Migration Agent.
